# PHILADELPHIA CREMATORIES

INCORPORATED

*F*inal arrangements for yourself or a loved one involve some of the most personal choices you will make in a lifetime. When considering cremation, it is important to know and understand all of the options available to you.

One of the most important and irreversible decisions you will be making is where and how the cremation will take place. Since 1991, PCI has been dedicated to serving local funeral homes by providing the highest quality cremation service. As a leader in our industry, our nationally recognized policies and procedures are designed to give complete peace of mind to families who choose cremation. Whether it is for peace of mind, or to help achieve a better sense of closure, many people want to see where the cremation will take place and to take part in some form of a meaningful final tribute, ritual or ceremony at the crematory.

Our state-of-the-art cremation facility was designed specifically to meet these needs. We offer a chapel for families wishing to have an identification viewing or a committal service, a private attendance room for those who wish to be present when the cremation begins or during the entire cremation process, and an urn selection room where those interested can see and choose from new and varied types of cremation memorialization products and services.

We have an open-door policy of transparency regarding all aspects of our service. You are welcome and encouraged to inspect our operation at any time, and educate yourself as to what we do here, so you can compare us to other crematories and appreciate the differences. Our ultimate goal is to help you achieve a secure feeling of satisfaction and validation regarding your selection of cremation. Please ask your Funeral Service Professional about visiting our facility.

For more information about cremation, and the confidence that PCI offers, visit us at:
